

WITH ROOSEVELT LEADING IN CALIFORNIA DEMOCRATS ASK FOR RECOUNT LOS ANGELES COUNTY

(By Associated Press)
SAN FRANCISCO, Nov. 14.—With one precinct missing and only nine counties remaining to canvass officially, California gave Roosevelt today a plurality over Wilson of 12 votes. The final result, however, is in the keeping of San Francisco, Los Angeles and Alameda counties which have not certified their returns. A split electoral delegation appears certain and the final result will not be known until the secretary of state certifies to the election of the individual electors.

Recount Asked For
LOS ANGELES, Nov. 14.—Alleging that ballots had been tampered with and return sheets abstracted, Mary Fry, democratic presidential elector, has obtained from the district court of appeal a writ of mandamus to compel the supervisors to give a fair and honest count of the ballots cast on November 5.

The writ is returnable next Monday and will have the effect of delaying after that date the announcement of the results of the canvass. Democratic State Chairman Davis and Rudolph Sprinkels have arrived to watch the canvass.

CANVASS OF THE ELECTION RETURNS STARTS TOMORROW

SHARP PRECINCT CONTINUES UN-REPORTED ALTHOUGH EXPECTED DAILY

The official canvass of the votes cast in Nye county at the general election will be made by the board of county commissioners tomorrow morning. The count will start at 10 o'clock sharp and should be completed during the afternoon.

The returns from the Sharp precinct failed to appear today and should they arrive tomorrow the official canvass will be completed without delay. In case the Sharp returns are not received tomorrow the count will proceed and the missing ballots will be canvassed on their arrival.

The ten days required by law to lapse providing all precincts are not reported, will have passed tomorrow morning. The commissioners have been meeting daily since the first Monday of this month and have been in readiness to canvass the results should all of the precincts have reported.

The Sharp precinct has always been the last to report during the past years. It is located in the extreme eastern section of Nye county, near the White Pine county line. The town has no railroad communication and the mail, it is understood, is sent out at irregular intervals. This accounts for the delay that has occurred.

ORGANIZATION TO BE PERFECTED AT MEETING

Every person in Tonopah who is interested in the good road movement is requested to attend the meeting of the State Automobile association and also the Tonopah Automobile club which is scheduled for 3 o'clock Monday afternoon. The session will be held at the brokerage office of H. E. Epstein.

Meetings are being called in Elko and Winnemucca and it can be assured that the energetic business men of the counties affected will do their utmost to secure the route.

The officials of the club, who will meet in conjunction with the state association are, Frederick Bradshaw, president; P. S. Booth, vice president; Robert Richards, secretary; S. R. Moore, treasurer; Ed Malley, R. J. Highland and R. L. Prouty, board of governors.

One of the principal objects in calling the meeting Monday is for the purpose of perfecting the state organization.

DARROW MAY NOT FACE TRIAL AGAIN

LOS ANGELES, Nov. 14.—The second trial of Clarence S. Darrow, the Chicago attorney who defended the McNamara's, which had been set for Friday will be indefinitely postponed, it is believed.

Friends of Darrow insist that the former chief counsel of the confessed dynamiters will never be tried again for alleged jury bribing.

"It is virtually certain that a continuance will be granted because of the illness of Earl Rogers, his chief counsel in the first trial, although it is said Darrow has not engaged counsel for the second trial," said a friend of the attorney.

District Attorney Fredericks said yesterday that he had not made up his mind whether to go on with the proposed trial.

Ryan, president of the International Association of Bridge and Structural Iron workers, had full knowledge of the explosions and that he even advised the dynamiters to disguise themselves were made by McManigal in his confession at the dynamite conspiracy trial today.

MAN CARVES CHICKEN FINDS DIAMOND INSIDE

NEW YORK, Nov. 14.—It was a fine big chicken, and it seemed a shame to kill it, but there was company coming for the Sunday dinner and a nice fowl roast would be just the thing, thought Mr. and Mrs. Charles Martin of Brooklyn, so the chicken was guillotined and prepared for the meal. The guests were loud in their praise of the tender meat.

While carving, Mr. Martin struck something metallic. It was a diamond ring valued at \$75, which Mrs. Martin had lost last Decoration day while she was feeding the chickens.

DECREASE IN DIVORCE INDUSTRY IS NOTICEABLE

DECREE SEEKERS ARE ALARMED OVER LEGISLATIVE THREATS TO CHANGE LAW

Advices received in Tonopah today from Reno state that there is a fairing off in the divorce industry in that city. Of late there has been very few arrivals from the east who are intent on severing unpleasant marital ties, and that the regular holiday rush, as has been observed in past years, is not in evidence.

The decrease in divorce seekers is believed to be caused by the reports that the incoming legislature would take a decisive stand on the question and require a year's residence or else provide for corroborative testimony as to the grounds upon which a complaint is based.

ATTENDANCE AT LOCAL SCHOOLS IS WITHOUT EQUAL

EVERY PUPIL IS PRESENT OR ACCOUNTED FOR BY THE TRUANT OFFICER

For the first time in the history of the Tonopah schools, there was not an absent pupil today who was not accounted for. The excellent attendance is attributed to the appointment of Joseph Scott as truant officer. Scott has entered upon his duties and is insisting upon the attendance of all pupils, unless otherwise excused by their teachers or parents.

The playing of "hooky" will not be sanctioned by the truant officer, nor will he permit the school children to be out on the streets later than 8:30 o'clock each evening. He is bound to enforce the school laws and from the manner in which he is progressing, he expects to have but little trouble in compelling the attendance at school of all children.
